

TRAN THI THANH THAO

Business Analyst

Ho Chi Minh City, Vietnam | +84 812 794 270

thaotran.analyst@gmail.com | linkedin.com/in/tran-thi-thanh-thao | Portfolio

PROFESSIONAL SUMMARY

Technical Business Analyst with experience supporting AI automation and multi-tenant SaaS initiatives. Skilled in translating business requirements into BRDs, BPMN models, user stories and functional specifications while collaborating with cross-functional Agile teams. Skilled in healthcare compliance, stakeholder communication and solution evaluation.

PROFESSIONAL EXPERIENCE

TMA Solutions

June 2026 – Present

Technical Business Analyst Intern

- **Enterprise AI Automation Platform:** Evaluated enterprise AI frameworks by defining functional evaluation criteria and documenting comparative findings to support leadership's strategic decision-making.
- Analyzed browser-automation workflows and translated technical constraints into prioritized Non-Functional Requirements (NFRs), helping the engineering team address enterprise integration risks.
- Authored BRD, SRS, BPMN process models and functional specifications that translated business requirements into clear, actionable documentation for development teams.
- **Healthcare Multi-tenant SaaS Platform:** Conducted business analysis for migrating a healthcare assessment tool into a scalable multi-tenant SaaS architecture, documenting current-state and future-state workflows.
- Collaborated with product owners and developers to clarify business requirements and refine user stories.
- Defined user flows, business rules, acceptance criteria and Role-Based Access Control (RBAC) requirements for questionnaire engines and AI-assisted document generation.
- Established requirement traceability matrices and coordinated UI specifications, ensuring alignment with GDPR and healthcare EMR interoperability standards.

MindX Technology Center

Sep 2025 – Present

Data Analytics Mentor (Part-time)

- Designed practical analytics curricula, training 30+ learners to solve business problems using SQL, Python and Power BI.
- Developed project-based business case studies, guiding learners through requirement analysis, data modeling, dashboard development and business presentation.
- Achieved a 100% project completion rate through structured feedback and progress tracking.

CONSULTING & RESEARCH PROJECTS

Multi-tenant Data Lakehouse Platform (Thesis)

Dec 2025 – May 2026

Developer & Business Analyst

- Designed a scalable lakehouse architecture enabling secure tenant isolation and Change Data Capture (CDC) ingestion for heterogeneous enterprise databases.
- Specified data transformation pipelines to support reporting accuracy, tenant-specific governance and cross-functional integration.
- Produced architecture documentation and technical specifications to support implementation planning and cross-functional collaboration.

EDUCATION

Industrial University of Ho Chi Minh City

June 2026

Bachelor of Information Systems | GPA: 3.2/4.0

Relevant Coursework: Requirements Engineering, Systems Analysis & Design, ERP, Project Management

SKILLS

- **Business Analysis:** Requirement Elicitation, BRD, FRD, SRS, User Stories, Acceptance Criteria, Business Rules, Requirement Traceability, Gap Analysis, UAT, Cost-Benefit Analysis.
- **Process Modeling:** BPMN, UML, Workflow Mapping, Wireframing.
- **Agile & Project Management:** Agile (Scrum), Sprint Planning, Backlog Refinement, Jira.
- **Technical:** REST APIs, SQL, Python, Power BI, Excel (Data Modeling, Pivot Tables), Data Modeling, Multi-tenant SaaS.
- **UX & Prototyping:** Figma, Draw.io, Miro, VS Code.
- **Languages:** English (B2), Vietnamese (Native).

CERTIFICATIONS

- **Google Agile Essentials** – Google Dec 2025
- **Python for Data Science, AI & Development** – IBM Feb 2025
- **Advanced Relational Database and SQL** – Coursera Project Network Dec 2024
